Hearing And Listening
Skills

Definition of hearing

- . 1a : the process, function, or power of perceiving sound specifically : the special sense by which noises and tones are received as stimuli.
- 2a : opportunity to be heard, to present one's side of a case, or to be generally known or appreciated.

Definitions

- **Hearing** is simply the act of perceiving sounds by the ear. If you are not hearing-impaired, hearing simply happens.
- To perceive or apprehend by the ear; to gain knowledge by hearing; to listen to with attention.

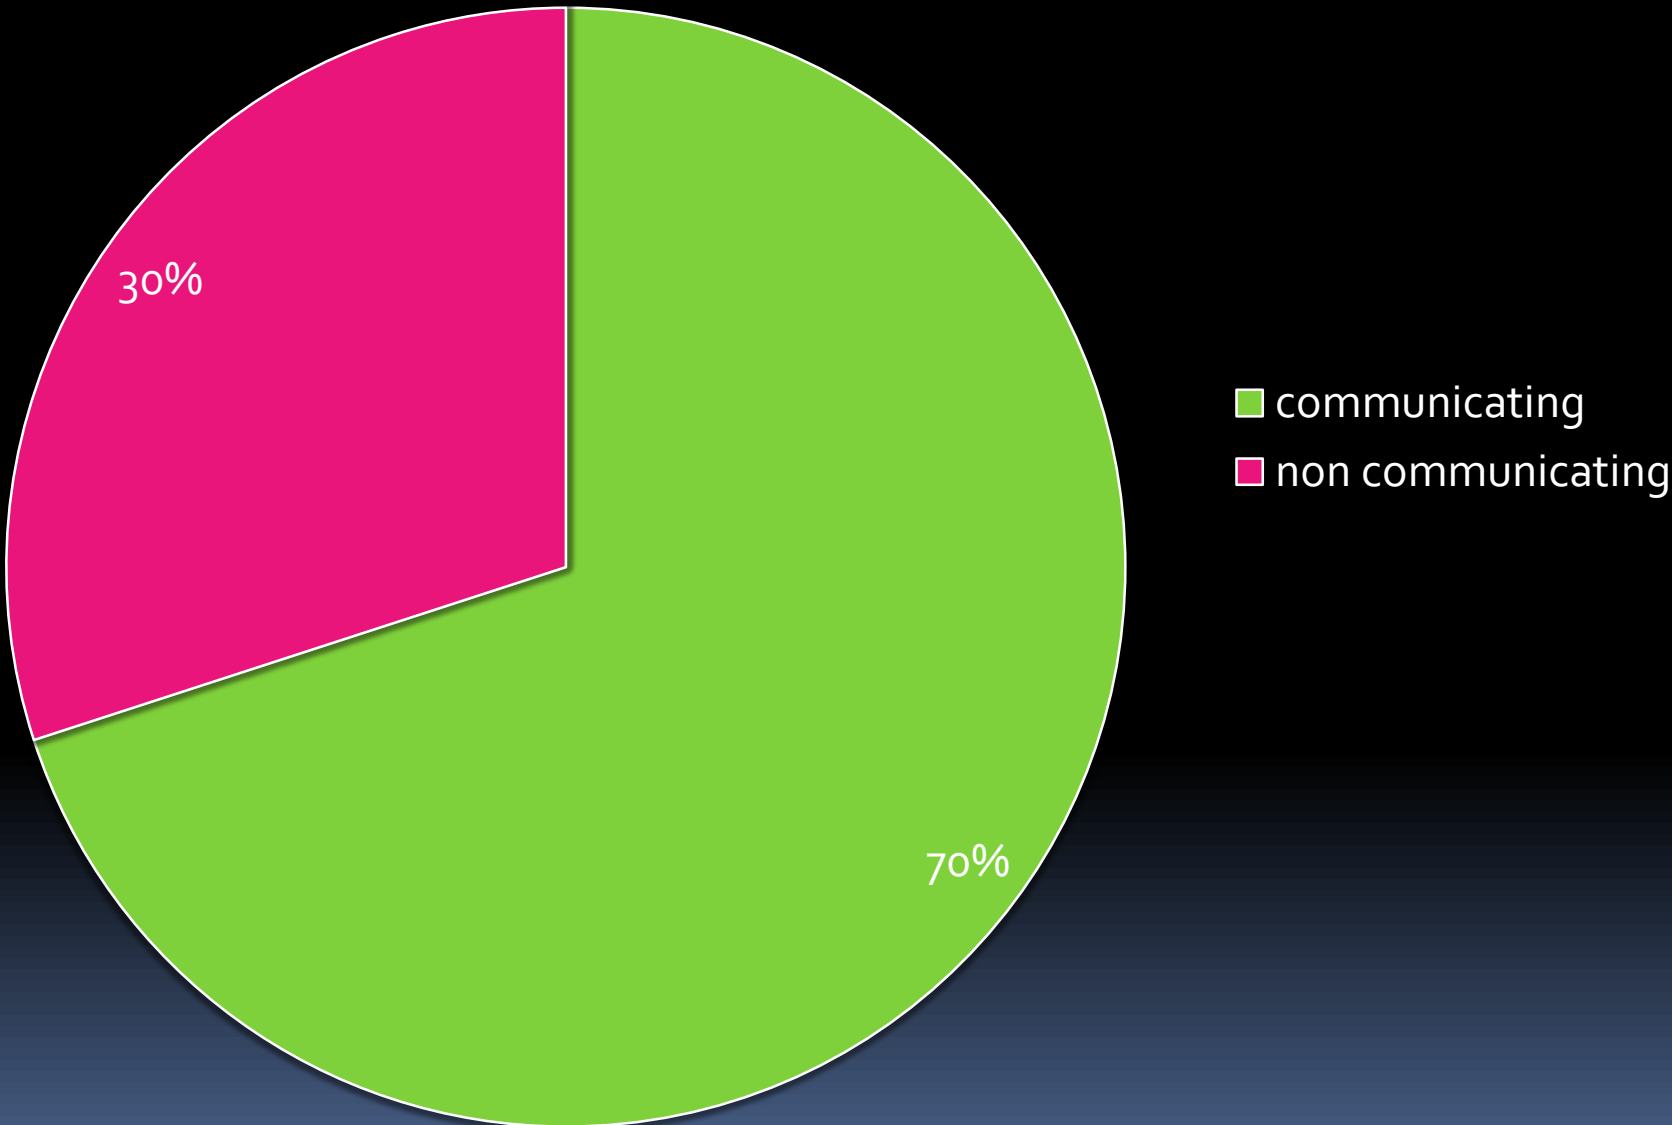

Hearing is passive and occurs even while we sleep.

Listening

- Definition: The physical and psychological process that involves acquiring, assigning, meaning and responding to symbolic messages from others.
- 

Time distribution of Communication

Distribution of communicating Time

- listening
- writing
- reading
- speaking
