Report of Industrial Visit

Smt. Radhadevi Goenka College for Women, Akola
Institutions Innovation Council & Department of Commerce
Report of Industrial Visit
Session: - 2021-22

The Industrial tour was jointly organized by Institutions Innovation Council & Department of Commerce for UG & PG students of Commerce stream on 25/02/2022.

Objectives of industrial visit

As the proverb goes "The Logic Can Take You from A to B, But Imagination Can Take You Anywhere". Objectives of industrial visit are to **provide students an insight regarding internal working of companies**. We know, theoretical knowledge is not enough for making a good professional career. With an aim to go beyond academics, industrial visits provide students a practical perspective on the world of work.

➤ **Manufacturing Unit of Savatram Polymers** (Savatram Polymers, MIDC Phase-II, Akola)

One of the well-known SP Brand for HDPE & PVC pipes is Savatram Polymers. The Director, Shri Alok Babu Goenka, open heartedly accepted the proposal of Industrial Visit. The Manger Shri Kotumbkar thoroughly guided the students as well as the faculty members with each and every minute detail of the manufacturing and Marketing process of PVC & HDPE pipes.

➤ **Manufacturing Unit of Varun Industries** (Varun Industries, MIDC Phase-IV, Akola)

Varun Industries engaged in Manufacturing of White Coal i.e Biomass Briquettes. Biomass briquettes are a biofuel substitute to coal and charcoal. Briquettes are mostly used in the developing world, where cooking fuels are not easily available. The Director Mr. Varun Agrawal with his immense knowledge and interest helped students in providing the basic details of the business. The students were amazed to see the product as well. In addition, the students asked several question regarding the raw material and its sources, labour cost, overhead expenses and selling price of the same. Mr. Varun answered each and every question to the satisfaction.

Students gathered all the relevant information about the industry, products, processes, raw material and its supply, marketing, distribution and industry related problems. Total 19 students & 10 faculties were visited to these industries.

Environmental Studies Aims, Objectives, Outcomes & Report

Smt. Radhadevi Goenka College for Women, Akola

Environmental Studies

Session: 2021-22

Aims, Goals, Objectives, Outcomes & Report

Introduction

Environmental Studies is a compulsory course for all UG IInd year (Annual Pattern) & IInd Year Semester IV year Students. The aim of environmental studies is to develop a world population that is aware of and concerned about the environment and its associated problems and which has the knowledge, Skills, attitudes, motivations and commitment to work individually and collectively towards solutions of current problems and prevention. Environmental education is concerned with those aspects of human behavior which are more directly related to man's interaction with bio-physical environment and his ability to understand this interaction. To create awareness among today's generation on pressing environmental problems, the University Grants Commission (UGC) has made it mandatory for the universities to introduce a course in environmental studies and teach students about the eco-system, pollution and problems concerned with the environment

Aims of Environmental Studies:

- *Learn how to use resources sustainably*
- *Create awareness about preserving the environment*
- *Participate in the mass movement to protect nature*
- *Foster a healthy learning environment*
- *Pursue a full-time career in environment studies*

To sum up the importance of introducing environment studies in course curriculum, the objectives are mainly to help students realize the significance of natural resources and learn to develop solutions to pressing environmental problems. The aim should be developing a world where every individual is aware of and concerned about environmental issues and work

Criterion I : Curriculum Aspects

towards creating sustainable strategies for the current situation and preventing future problems.

Goals:

- *To provide students with a broad interdisciplinary liberal arts framework for understanding the relationship between humans and their environment;*
- *To provide students with informed perspectives on biological and physical processes relevant to environmental problems, to help students understand responsible environmental policy and practice, and to engage students in ethical reflection regarding environmental problems in local, regional, national, and global communities;*
- *To prepare students for careers, citizenship and environmental stewardship through experiential curricular and co-curricular opportunities;*
- *To equip students with the knowledge and skills necessary to pursue professional careers and advanced study related to the multi-faceted nature of environmental studies.*

Program Objectives

- *Students will integrate knowledge from multiple disciplines representing physical and life sciences perspectives, political and economic perspectives, and social and cultural perspectives on humans' interactions with their environments;*
- *Students will contribute to and facilitate interdisciplinary research and problem solving, through independent and collaborative work; and*
- *Students will use quantitative and qualitative research tools and techniques to analyze, implement, envision, assess, and report sustainability efforts*

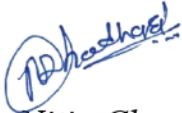

Learning Outcomes

After completing the Environmental Studies, students will be able to:

- *Articulate the interconnected and interdisciplinary nature of environmental studies;*
- *Gaining in-depth knowledge on natural processes that sustain life and govern economy.*
- *Demonstrate an integrative approach to environmental issues with a focus on sustainability;*

Criterion I : Curriculum Aspects

- *Developing critical thinking for shaping strategies (scientific, social, economic and legal) for environmental protection and conservation of biodiversity, social equity and sustainable development.*
- *Understand and evaluate the global scale of environmental problems; and*
- *Reflect critically on their roles, responsibilities, and identities as citizens, consumers and environmental actors in a complex, interconnected world.*
- *Predicting the consequences of human actions on the web of life, global economy and quality of human life.*
- *Acquiring values and attitudes towards understanding complex environmental economic-social challenges, and participating actively in solving current environmental problems and preventing the future ones.*
- *Adopting sustainability as a practice in life, society and industry.*
