Feedback Action Taken & Analysis Report 2016-17

Students' Feedback is very important for our institution, because they are the chief stakeholders. Annual activity of obtaining relevant data was carried out. A representative random sample of 20 students of the final year in each department was selected, for the purpose of achieving appropriate outcome of students' feedback. The questionnaire was framed to include feedback about each teacher, library, curriculum & infrastructure. 25 multiple choice questions (MCQs) were framed with 4 option each. Names of the students were kept optional for them in order to eliminate fear / inhibition factor (if any) among the students. Systematic tabulation of data as done department wise & analysis was carried out.

Students were satisfied with the regularity & punctuality of 96 % of the teachers for the lectures. Teachers prepared for the classes & communicated very effectively with the students. All of the teachers use ICT Tools for the teaching & attended to academic & their problems of students satisfactorily. Majority of students had no problem with the quality of internal assessment process. There is very good teacher – student relationship & rapport due to attention of teachers towards students' competencies & future career. Students are satisfied with the encouragements given to them by teachers for extracurricular activities.

Students' satisfaction about the library is quite good, though some of them wanted to have more time for the book access. 80% students opined those sufficient books, magazines etc. are available in the library. Curriculum is considered to be very good by majority of the students. Infrastructure of the institution is very good. 100 % students have had enough practicals / tutorials per week. There appears to be need for improvement in computer, internet & xerox facilities since 96% students considered them to be average. Sports facilities in the college were considered as average by most of the students & hence need to be upgraded & expanded. Website of the institution was rated as good, by most of the students.

To sum up, students' feedback for the session 2016-17 is very good, with scope for more student-oriented improvements in tune with changing times & needs, in near future.

The report for 2016-17 has been prepared by coordinated work of the members of Students' Feedback Committee.

Names of the students were kept optional for them in order to eliminate fear / inhibition factor (if any) among the students. Systematic tabulation of data as done department wise & analysis was carried out.

Students were satisfied with the regularity & punctuality of 94 % of the teachers for the lectures. Teachers prepared for the classes & communicated very effectively with the students. All of the teachers use ICT Tools for the teaching & attended to academic & their problems of students satisfactorily. Majority of students had no problem with the quality of internal assessment process. There is very good teacher – student relationship & rapport due to attention of teachers towards students' competencies & future career. Students are satisfied with the encouragements given to them by teachers for extracurricular activities.

Students' satisfaction about the library is good, though some of them wanted to have more time for the book access. 70% students opined that sufficient books, magazines etc are available in the library. Curriculum is considered to be very good by majority of the students. Infrastructure of the institution is very good. 90 % students have had enough practical / tutorials per week. There appears to be need for improvement in computer, internet & xerox facilities since many students considered them to be average. Sports facilities in the college were considered as average by 90% students & hence need to be upgraded & expanded. Website of the institution was rated as good, by most of the students.

It can be concluded that, the feedback of students of the session 2017-18 is quite satisfactory. There is always scope for changes & improvement in the next session, depending on the needs perceived by the students & college.

Feedback Action Taken & Analysis Report 2018-19

According to responses given by the students, it is observed that most of the teachers are performing their duties sincerely and punctually. Their class control is up to the mark. Teachers are having thorough knowledge about their subjects. It is also found that teachers are motivating students regarding their course work as well as in their further studies. They are in favour of completing syllabus. 23 teachers out of 35 are above 80% i.e. 'A' Grade. 10 faculty members out of 35 have secured 'B' grade i.e., very good. That's why it becomes clear that most of the regular faculty members belong to 'A' grade and therefore feedback is excellent.

The present curriculum is excellent. Most of the respondents are of the opinion that there is vast scope in improving library facilities and outdoor games facilities. Similarly general administration and discipline has been maintained properly but still it needs improvement over it. Infrastructure facilities of the college and laboratories are in good condition. Thus, most of the respondents are of the view that the curriculum is up to the mark.

Few respondents suggested regarding cleanliness such as lavatory and classrooms as well as college uniform is essential.

Regarding attendance of the college students, the committee found that some students are not attending classes regularly. Hence, the committee unanimously decided to increase attendance of the students in the classrooms. It suggested to the office to display the names of the students on the notice board. Similarly, the committee decided to send SMS and letters to the students who often remain absent and whose attendance is below eighty percent. As a result of this action, ratio of the present students in the classrooms has been increased and more than eighty percent students appeared for university examination.
