

Bharatiya Seva Sadan's
Smt. Radhadevi Goenka College for Women
NAAC Reaccredited Grade B+ with CGPA 2.71
Junior, Senior & Postgraduate Multi Disciplinary College
Affiliated to Sant Gadge Baba Amravati University, Amravati . (M.S.)
(Certified Minority Institution)

1.1.1 The institution ensures effective curriculum delivery through a well-planned and documented process

Use of ICT Tools in Curriculum Delivery
(Supporting Documents-9)

Use of ICT tools in Teaching is a major part of effective curriculum delivery. COVID-19 pandemic situation faculty members used so many Learning Management Systems (LMS) i. e. Google Classroom, Teachmint etc. also used Meet Apps like Zoom, Google meet, Webex Meet and WhatsApp Messenger for effective teaching.

Estd. 1965

Prof. S. . Dewar Teaching through Digital Classroom.

Use of Digital Classroom

Dr. U. R. Bajpai Teaching through Digital Classroom.

PPT on Decision Making Process

Evaluate Alternatives

- One of the most important stages of the decision making procedure where you have to analyze each alternative you have come up with.
- This step includes -
 - Finding out the advantages & disadvantages of each option.
 - Filter out the options that you think are impossible or do not serve your purpose.
 - Rating each option with a numerical digit would also help in the filtration process.

Select the best alternatives

- In this step is where the hard work you have put in analyzing would lead to a proper decision.
- this includes the alternative which seems to be best suited to you.
- Choice of the best alternative is the most critical point in decision making.

5 Steps in Decision Making Process

- Identify the Problem
- Discovering alternative courses of action
- Evaluate Alternatives
- Select the best Alternatives
- Implementing & follow up action

Identify the Problem

- This stage involves understanding with absolute clarity what the issue is & what type of decision is going to be made.
- The first thing one has to do is state the underlying problem that has to be solved. You have to clearly state the outcome that you have made the decision.
- This step includes -
 - Make sure it's a problem & not just a symptom of a problem.
 - problem identification is subjective.

Implementing & follow up action

- In this step you experience the results of your decision & evaluate whether or not it has "solved" the need you identified in step 1. If it has, you may stay with this decision for some period of time.
- If the decision has not resolved the identified need, you may repeat certain steps of the process in order to make new decision.
- Ex - example, gather more detailed or somewhat different information or discover additional alternatives on which to base your decision.

Thank You

Ujwala Bajpai
