PPT on Decision Making Process

The presentation content is as follows:

Evaluate Alternatives

- One of the most important stages of the decision making procedure where you have to analyze each alternative you have come up with.
- This step includes :-
 - Finding out the advantages & disadvantages of each option.
 - Filter out the options that you think are impossible or do not serve your purpose.
 - Rating each option with a numerical digit would also help in the filtration process.

Select the best alternatives

- In this step is where the hard work you have put in analyzing would lead to a proper decision.
- this includes the alternative which seems to be best suited to you.
- Choice of the best alternative is the most critical point in decision making.

5 Steps in Decision Making Process

- Identify the Problem
- Discovering alternative courses of action
- Evaluate Alternatives
- Select the best Alternatives
- Implementing & follow up action

Identify the Problem

- This stage involves understanding with absolute clarity what the issue is & what type of decision is going to be made.
- The first thing one has to do is state the underlying problem that has to be solved. You have to clearly state the outcome that you have made the decision.
- This step includes :-
 - Make sure it's a problem & not just a symptom of a problem.
 - problem identification is subjective.

Implementing & follow up action

- In this step you experience the results of your decision & evaluate whether or not it has "solved" the need you identified in step 1. If it has, you may stay with this decision for some period of time.
- If the decision has not resolved the identified need, you may repeat certain steps of the process in order to make new decision.
- Ex : example, gather more detailed or somewhat different information or discover additional alternatives on which to base your decision.

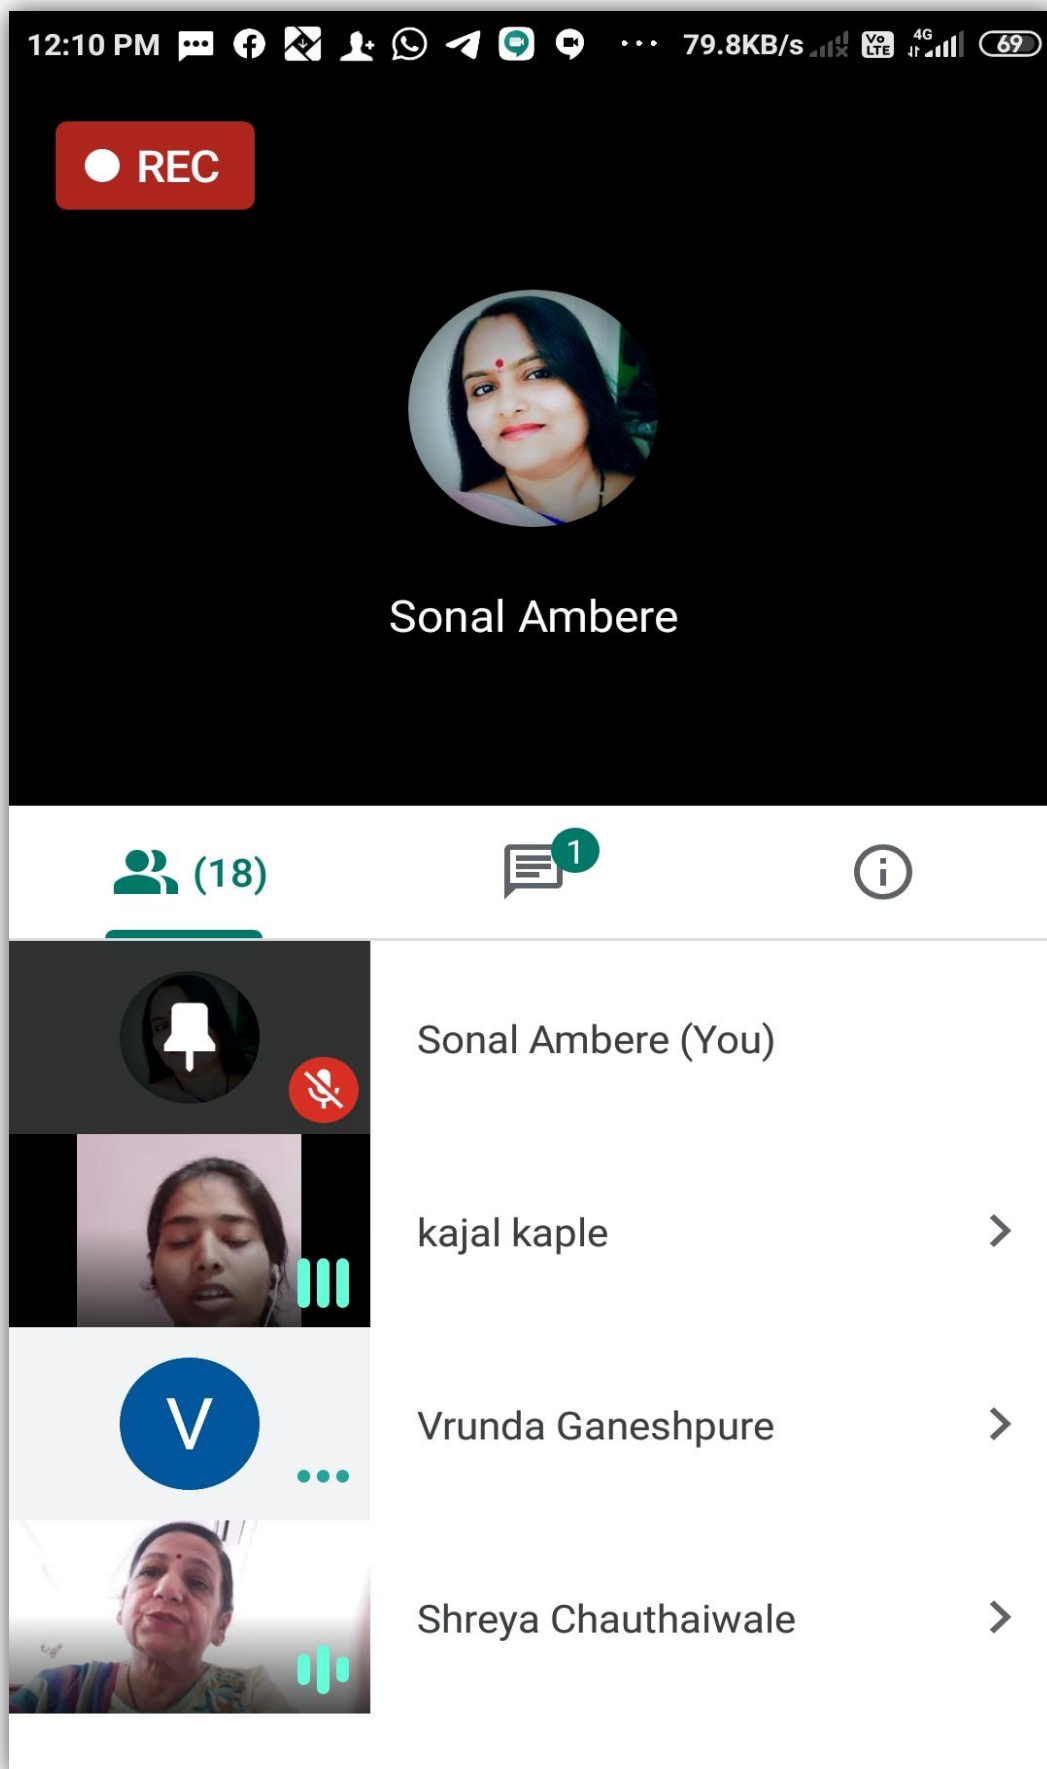

Thank You

Ujwala Bajpai

Participants listed in the presentation:

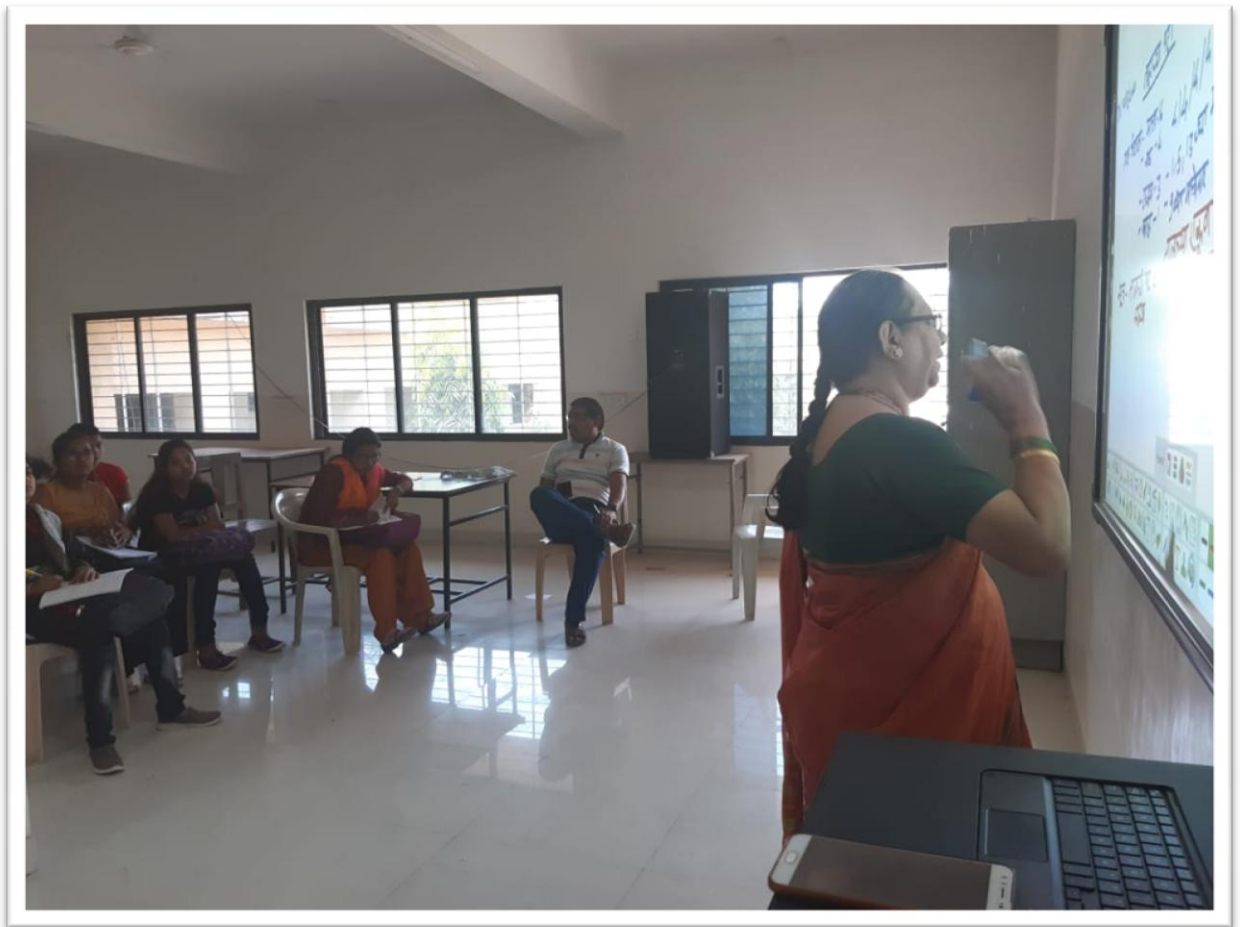

- Jay Wankhade
- pyoti shirsat
- Jyotshna Tayde
- Kalyani Harane
- Maya Harne
- Payal Meshram
- Rajeev Ingle
- Samiksha Mehesare
- Shubham Ghavat
- Snehal Ingle
- Sushma Gawande
